

Service Level Agreement

As a leader in the provisioning of mission-critical hosting environments our Service Level Agreement (SLA) is designed to offer you the protection from the unexpected by providing among the highest levels of availability within the industry. With a 100% Network and Infrastructure availability and aggressive penalties for failure to meet the standards set within the SLA you can be assured of a good home for your dedicated or collocated server.

We will be happy to send you a sample SLA on request. Please use the [Contact us Link](#) to get in touch.
